VIOLA/GRIGIO PURPLE/GREY	TENSIONE PROG. PROG. VOLTAGE
MARRONE BROWN	RESET

ECU CONNECTOR

Warning : in order to work on the ECU (both reading and writing operations) it is necessary to make the little bridge (LINK) between the 2 TEST POINT B and O; it is then required a 100Ohm resistor connected as shown in the picture. All these connections must be removed before restoring the ECU into the vehicle.
