

Kit da utilizzare:

- Cavo multifunzione
- Flat arcobaleno

Questa centralina necessita di un alto amperaggio. Quindi raccomandiamo di alimentare il sistema collegando una batteria esterna tramite il connettore jack verde al tool.

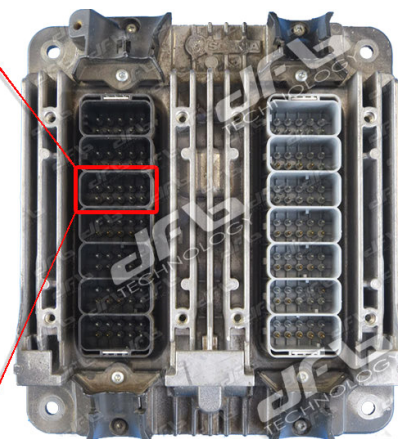

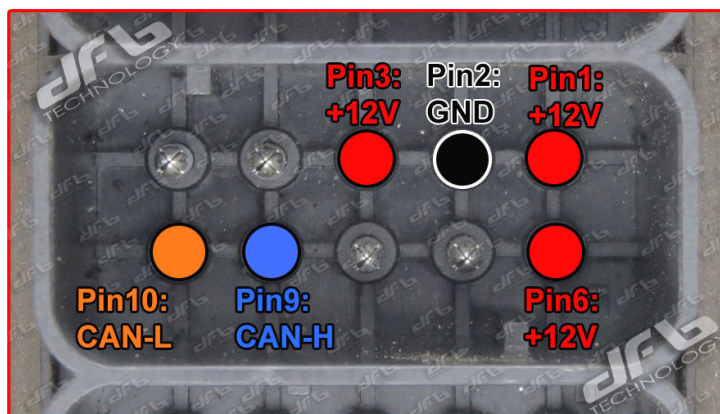

Collegare il cavo multifunzione nel seguente modo:

Kit to use:

- Multifunction cable
- Rainbow flat cable

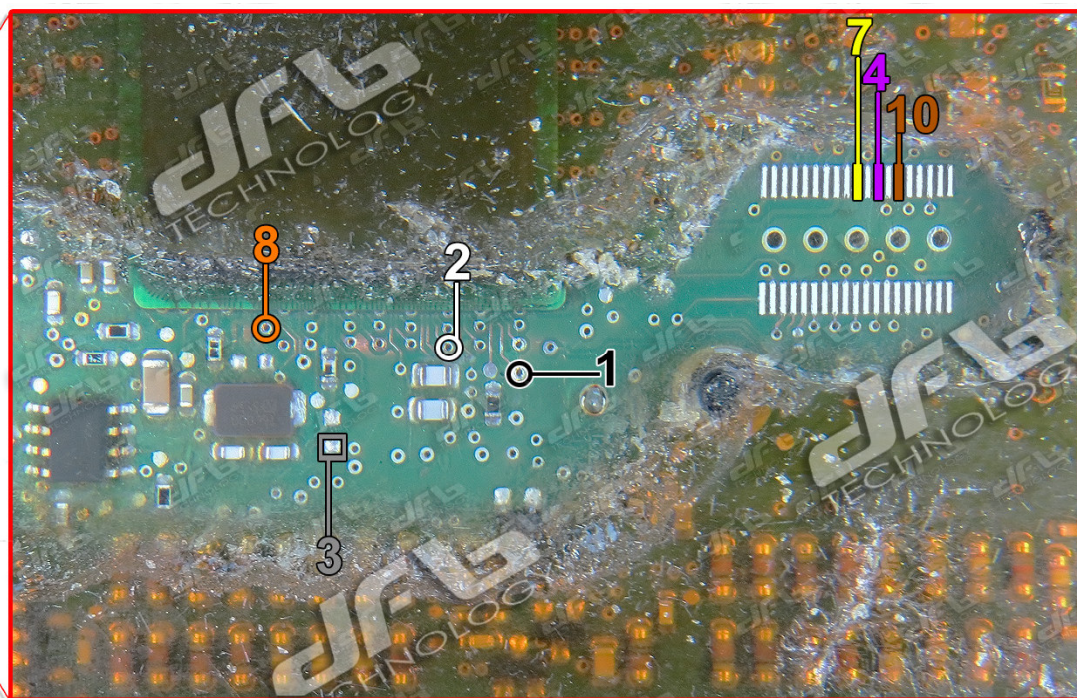

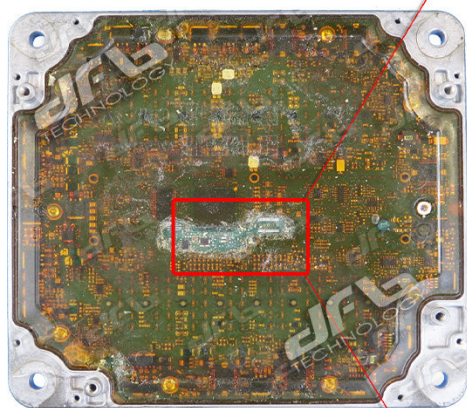

This control unit requires a high amperage. So we recommend powering the system by connecting an external battery via the green jack connector to the tool.

Connect the multifunction cable as follows:

Rimuovere la resina sulla scheda e saldare il flat arcobaleno:

Remove the resin on the board and solder the rainbow flat:

Per leggere e scrivere utilizzare il seguente driver:

- > BDM / JTAG
- > JTAG NEXUS MPC/SPC
- > MPC 55xx

To read and write use the following driver:

- > BDM / JTAG
- > JTAG NEXUS MPC/SPC
- > MPC 55xx
